

ECO COMMERCE CONSULTING GROUP

Brought to You by Chamber of Eco Commerce

Eco Commerce Consulting (ECC), founded in January 2012, is a stakeholder owned management consulting group. We specialize in Eco Commerce issues through cost-effective project planning, management, finance, applied engineering and scientific expertise. We listen to our clients' specific needs and develop a sound technical understanding prior to designing solutions. We successfully apply our knowledge and experience to contribute to challenges. Our projects range from small, specialty tasks to complex, long-term efforts.

Who We Are

ECC group is a fast growing international network of highly qualified, trained, certified and independent advisors and counselors. We serve businesses and institutions across industries and continents. ECC is a global organization, with regional offices. We speak many languages and represent many nationalities. ECC operates as a global business community, bringing the best expertise from our internal and external network of experts to each engagement. We value diversity and leverage our unique backgrounds to tackle new challenges.

Leadership

Leadership in the ECC is about helping others - our Eco Commerce consultants and clients. We pursue to exceed their expectations and to realize their full potential. We achieve our goals by helping consultants and clients address their challenges, solving problems, developing actionable knowledge, and being corporate entrepreneurs.

Delivering Results

At ECC, we understand that Eco Innovation and Commerce can directly impact business performance. We also understand that Eco Commerce initiatives need to be executed with speed, accuracy, flexibility and thoroughness. That's why companies turn to ECC services to help them accomplish their goals. Dedicated professionals, our consultants leverage a distinctive combination of industry expertise, experience and specialized services to deliver the benefits. With Eco Commerce focus, we offer innovative solutions and new business process know-how to bring results to business environment across industries and continents.

Focused Expertise, Specialized Services, Customized Solutions

ECC services are delivered through a worldwide network of experts, each with extensive domain expertise in the Eco Commerce management. Through in-depth experience, expertise, and flexible solutions, we help tackle evolving management issues quickly and cost-effectively.
